Welcome message

Dear friends and colleagues, ladies and gentlemen, your excellencies and representatives of government,

It is my privilege and honour to welcome you on the occasion of the fourth school of gastroenterology. After the successfully organized scientific meetings, beginning with the first international congress of gastroenterology in Bosnia and Herzegovina in may 2002, the first school of gastroenterology in april 2004, the second in april 2005 which focused on the disease of the upper digestive system and the third school in may 2006 which dealt with the diseases of the hepatobiliary and pancreatic system, we are now proud to invite you to attend the fourth school of gastroenterology whose main issue are tumors of the digestive system.

The recent three schools were accompanied by an excellent organized live demonstration of endoscopic procedures directly from our endoscopic unit to the auditorium. All of them were international schools attended by experts from all over Europe.

By these events we wanted to give our contribution to the development of gastroenterology as a way of promotion of our country. This school should offer the latest scientific findings in gastroenterological oncology aimed for students, general practitioners, pediatricians, internal medicine specialists and surgeons.

Although this year there will be no live demonstration, we would like to express our thanks for the full media support given by TV Hayat.

As it was the habit during the last few years we will be pleased to offer you a variety of social events.

You are kindly invited to attend our fourth school of gastroenterology and we will do our best to be good hosts and to show you the beautiful city of Sarajevo.

Yours sincerely,

Mehmed Gribajčević, MD, PhD

School Director

PROGRAMME OVERVIEW

Wednesday, May 09, 2007

11.00 - **Welcome**

11.15 - 13.00 - **SESSION 1: CANCERS OF THE ESOPHAGUS AND STOMACH**

- **Barrett's esophagus, endocitology and endoscopic follow up: Who needs surgery?**
Mehmed Gribajčević, Sarajevo, Bosnia and Herzegovina
- **Primary prevention of gastric cancer: Role of Helicobacter pylori eradication?**
Rusmir Mesihović, Sarajevo, Bosnia and Herzegovina
- **Nutritional support in patients with tumor cachexia: Defining appropriate management and intervention**
Nenad Vanis, Sarajevo, Bosnia and Herzegovina
- **Chemo-radiotherapy of stomach cancer**
Nada Paraganlija, Sarajevo, Bosnia and Herzegovina

Lunch

14.30 - 16.00 - **SESSION 2: CANCERS OF THE ESOPHAGUS AND STOMACH**

- **Precancerous changes in the diagnosis of esophageal and gastric tumors.**
Nurka Bilalović, Sarajevo, Bosnia and Herzegovina
- **Genetic predisposition to gastric cancer. Have biological markers of targeted therapy helped?**
Zora Vukobrat Bijedić, Sarajevo, Bosnia and Herzegovina
- **Imaging methods in detection of gastrointestinal carcinoma**
Lidija Lincender, Sarajevo, Bosnia and Herzegovina
- **Surgical treatment of esophageal cancer and gastric adenocarcinoma**
Haris Tanović, Sarajevo, Bosnia and Herzegovina

Coffee Break

16.30 - 17.45 - **SESSION 3: CANCERS OF THE PANCREAS, SMALL BOWEL, AND HEPATOBILIARY TRACT**

- **Evaluation of biliary strictures: How do we know if it is cancer?**
Srđan Gornjaković, Sarajevo, Bosnia and Herzegovina
- **Advances in the imaging of hepatobiliary cancers**
Milorad Opačić, Zagreb, Croatia
- **Bile duct cancer: How aggressive should we be?**
Nadan Rustemović, Zagreb, Croatia
- **The best timing for adjuvant therapy in pancreatic cancer management. Why is pancreatic cancer so difficult to treat?**
Damir Vrbanec, Zagreb, Croatia

18.00 - 19.00 - **Satellite Symposium - Lilly**

20.30 - **Dinner**

Thursday, May 10, 2007

11.00 - 13.00 - Session 4: CANCERS OF THE PANCREAS, SMALL BOWEL, AND HEPATOBILIARY TRACT

• GIST: Analysis to guide therapy

Mehmed Gribajčević, Sarajevo, Bosnia and Herzegovina

• Which patients are at an increased risk of developing hepatocellular carcinoma (HCC)?

Rusmir Mesihović, Sarajevo, Bosnia and Herzegovina

• Screening for pancreatic cancer: Clinical and genetic insights

Nađa Borovac, Sarajevo, Bosnia and Herzegovina

• Approach to diagnosis and management of HCC: chemoembolisation and ablation

Nadan Rustemović, Zagreb, Croatia

• Liver resection due to malignant tumors

Eldar Gadžijev, Ljubljana, Slovenia

Lunch

14.30 - 16.30 - Session 5: CANCERS OF THE COLON AND RECTUM

• Prevention of colorectal cancer

Nenad Vanis, Sarajevo, Bosnia and Herzegovina

• Endoscopic modalities for colorectal cancer screening

Roland Pulanić, Zagreb, Croatia

• Multiple colon polyps management: Can local excision replace radical resection in rectal cancer management?

Srđan Gornjaković, Sarajevo, Bosnia and Herzegovina

• Molecular imaging of colon polyps and cancer

Svjetlana Radović, Sarajevo, Bosnia and Herzegovina

• IBD and colorectal cancer

Željko Krznarić, Zagreb, Croatia

Coffee Break

17.00 - 19.00 - Session 6: CANCERS OF THE COLON AND RECTUM

• Biological agents in treatment of metastatic colorectal cancer

Dino Tarabar, Belgrade, Serbia

• Neoadjuvant therapy of metastatic colorectal cancer

Maja Banjin, Sarajevo, Bosnia and Herzegovina

• Surgical management of colorectal cancer

Vladimir Čuk, Belgrade, Serbia

• Adjuvant therapy of colorectal cancer

Ivan Popov, Belgrade, Serbia

• Systemic therapy of metastatic colorectal cancer

Dino Tarabar, Belgrade, Serbia
